

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

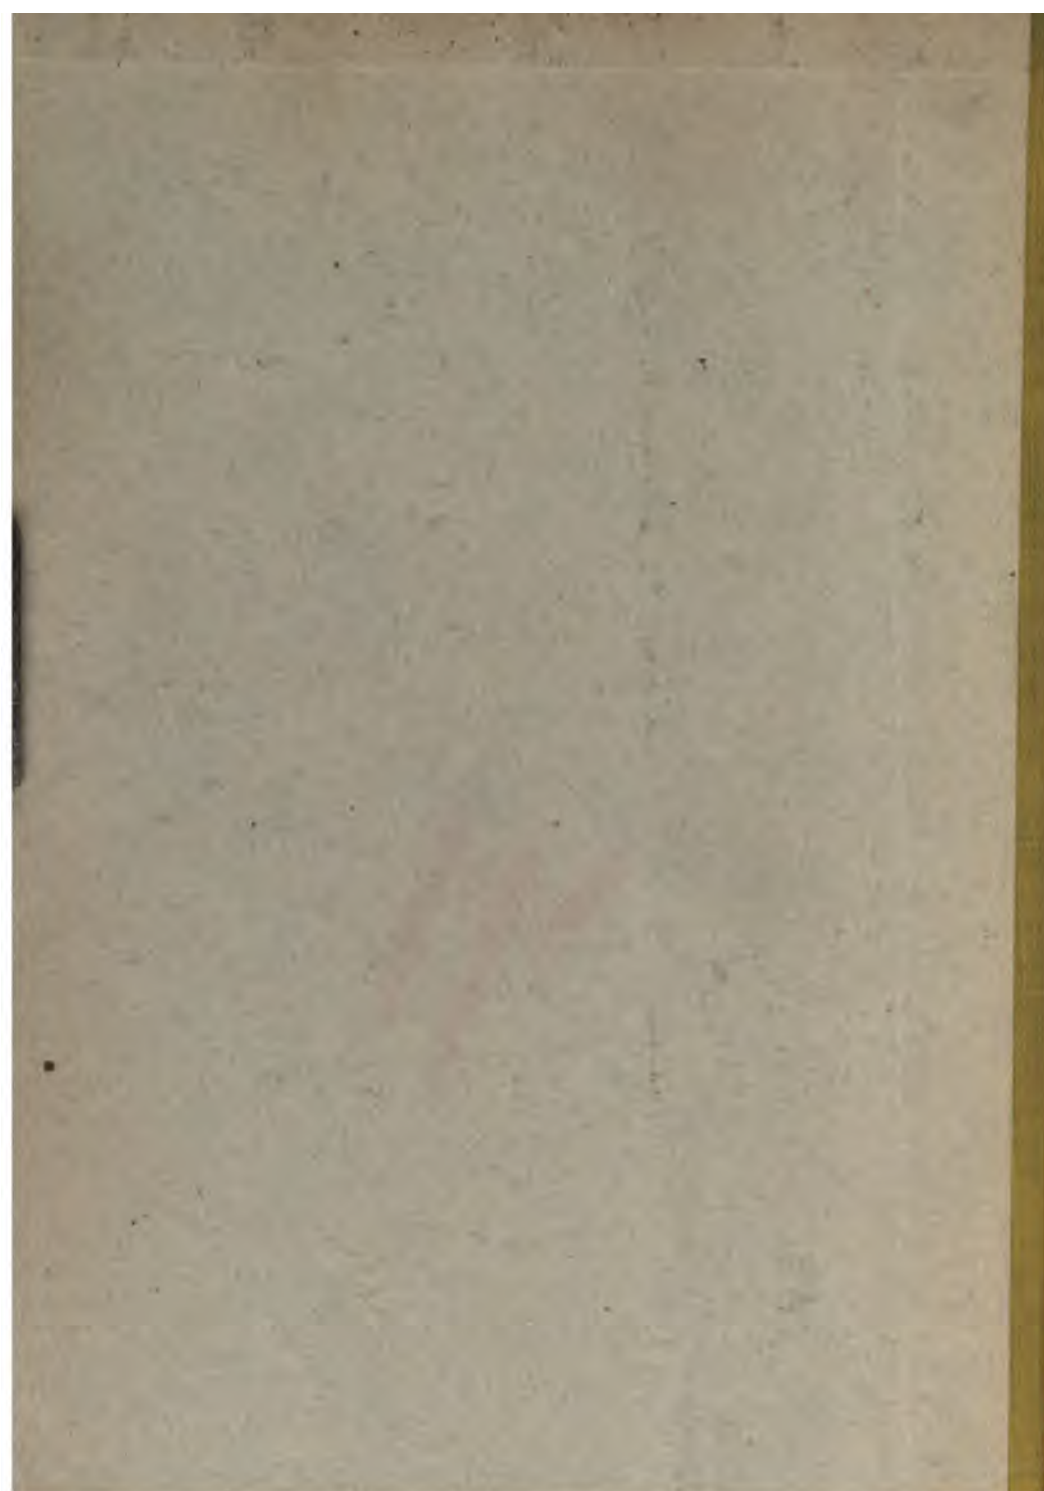

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

REPORT

OF THE

CHIEF COMMISSIONER OF PUBLIC WORKS,

From November 1st, 1894, to November 1st, 1895.

*To His Honor, the Hon. John James Fraser,
Lieutenant-Governor of the Province of New Brunswick.*

MAY IT PLEASE YOUR HONOR,—

In accordance with the duties of the Chief Commissioner of Public Works, I have the honor to submit my Report of all Public Works done under the supervision of the Department, together with Expenditures on the same from November 1st, 1894, to November 1st, 1895.

Statements Nos. 1 to 4, inclusive, in Appendix A are abstracts of all payments under the head of Expenditures for Great Roads, Bridges and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all Receipts and Payments whatsoever by the Department for the past year.

The following is a comparison of the Expenditures for the past year compared with the previous year:—

NO.	PAST YEAR	PREVIOUS YEAR
1. Great Roads and Bridges.....	\$141,185 46	\$150,176 11
2. Legislative and other Public Buildings.....	10,475 50	9,371 82
3. Lunatic Asylum.....	4,515 96	6,643 81
4. Steam Navigation.....	7,159 05	6,090 00
5. Departmental Expenses.....	629 31	764 03
6. Miscellaneous Account, including:		
Assistant Engineer's Salary, Travelling, etc.	1,999 86	1,642 49
Government House and Outbuildings, Fence	190 14	188 79
Bye Roads	69,284 22	71,482 23
	<u>\$235,439 50</u>	<u>\$246,359 28</u>

---	----

REPORT

OF THE

CHIEF COMMISSIONER OF PUBLIC WORKS,

From November 1st, 1894, to November 1st, 1895.

*To His Honor, the Hon. John James Fraser,
Lieutenant-Governor of the Province of New Brunswick.*

MAY IT PLEASE YOUR HONOR,—

In accordance with the duties of the Chief Commissioner of Public Works, I have the honor to submit my Report of all Public Works done under the supervision of the Department, together with Expenditures on the same from November 1st, 1894, to November 1st, 1895.

Statements Nos. 1 to 4, inclusive, in Appendix A are abstracts of all payments under the head of Expenditures for Great Roads, Bridges and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all Receipts and Payments whatsoever by the Department for the past year.

The following is a comparison of the Expenditures for the past year compared with the previous year:—

NO.	PAST YEAR	PREVIOUS YEAR
1. Great Roads and Bridges.....	\$141,185 46	\$150,176 11
2. Legislative and other Public Buildings.....	10,475 50	9,371 82
3. Lunatic Asylum.....	4,515 96	6,643 81
4. Steam Navigation.....	7,159 05	6,090 00
5. Departmental Expenses.....	629 31	764 03
6. Miscellaneous Account, including:		
Assistant Engineer's Salary, Travelling, etc.	1,999 86	1,642 49
Government House and Outbuildings, Fence	190 14	188 79
Bye Roads	69,284 22	71,482 23
	<hr/> \$235,439 50	<hr/> \$246,359 28

In the foregoing amounts for Great Roads and Bridges the proportion charged to annually appointed supervisors is....	\$ 18,063 00
The greater portion of this is for Roads, Repairs, Small Bridges, Culverts and Commissions.	
Add amounts expended on Bridges under special supervision, as per statement No. 2, Appendix A	117,065 53
Miscellaneous Special Expenditure as per statement No. 3, Appendix A	6,056 93
	<hr/>
	\$ 141,185 46

LEGISLATIVE AND OTHER BUILDINGS.

The expenditure on Legislative Buildings and Public Offices for the past year amounts to.....	\$ 7,158 79
On Normal School	3,316 71
On Lunatic Asylum.....	\$3,480 96
On Heating Apparatus.....	1,035 00
	<hr/>
	4,515 96
On Government House, Fence, etc.....	190 14
	<hr/>
	\$ 15,181 60

Reference to the statements herein presented for the information and consideration of Your Honor will exhibit an over expenditure during the past fiscal year on the Great Roads and Bridges of the Province of \$28,984.93. This was almost wholly made necessary by the unprecedented freshets, the result of very heavy rains in the spring of 1895, whereby many large and expensive bridges were swept away. Great injury was also done to the roads by means of washouts. The damage done to bridges was particularly great in the County of Charlotte, although the disasters were by no means confined to that section of the Province. These unforeseen expenditures

which could not in the ordinary course have been anticipated, will, I feel assured, be found on examination to have been made by the Department with a due regard to the public interests and necessities, even though the amount placed at the disposal of the Department of Public Works for such services, by the Legislature, has been exceeded.

I have usually added in my annual report to your Honor an Appendix, showing the expenditures made by supervisors on bridges, but in view of the present practice of the Department to have all such outlays, as near as may be, charged to Bridge Account in detail, I have deemed it advisable to discontinue such Appendix, thereby avoiding the expense incident to the same.

I have the honor to be,

Your Obedient Servant,

H. R. EMMERSON,

Chief Commissioner.

Department of Public Works, Established by 18 Vic, Cap. 7, Passed 3rd April, 1855.

REPORT

OF THE

CHIEF COMMISSIONER OF PUBLIC WORKS,

From November 1st, 1894, to November 1st, 1895.

*To His Honor, the Hon. John James Fraser,
Lieutenant-Governor of the Province of New Brunswick.*

MAY IT PLEASE YOUR HONOR,—

In accordance with the duties of the Chief Commissioner of Public Works, I have the honor to submit my Report of all Public Works done under the supervision of the Department, together with Expenditures on the same from November 1st, 1894, to November 1st, 1895.

Statements Nos. 1 to 4, inclusive, in Appendix A are abstracts of all payments under the head of Expenditures for Great Roads, Bridges and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all Receipts and Payments whatsoever by the Department for the past year.

The following is a comparison of the Expenditures for the past year compared with the previous year:—

NO.	PAST YEAR	PREVIOUS YEAR
1. Great Roads and Bridges	\$141,185 46	\$150,176 11
2. Legislative and other Public Buildings	10,475 50	9,371 82
3. Lunatic Asylum	4,515 96	6,643 81
4. Steam Navigation	7,159 05	6,090 00
5. Departmental Expenses	629 31	764 03
6. Miscellaneous Account, including:		
Assistant Engineer's Salary, Travelling, etc.	1,999 86	1,642 49
Government House and Outbuildings, Fence	190 14	188 79
Bye Roads	69,284 22	71,482 23
	<u>\$235,439 50</u>	<u>\$246,359 28</u>

Report of Auditor General upon the Accounts of Supervisors.	44
---	----

REPORT

OF THE

CHIEF COMMISSIONER OF PUBLIC WORKS,

From November 1st, 1895, to November 1st, 1896.

*To His Honor, the Honorable Abner R. McClellan,
Lieutenant-Governor of the Province of New Brunswick.*

MAY IT PLEASE YOUR HONOR,—

In accordance with the duties of the Chief Commissioner of Public Works, I have the honor to submit my Report of all Public Works done under the supervision of the Department, together with Expenditures on the same, from November 1st, 1895, to November 1st, 1896.

Statements Nos. 1 to 4, inclusive, in Appendix A are abstracts of all payments under the head of Expenditures for Great Roads, Bridges and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all Receipts and Payments whatsoever by the Department for the past year.

The following is a comparison of the Expenditures for the past year compared with the previous year:—

NO.	PAST YEAR	PREVIOUS YEAR
1. Great Roads and Bridges.....	\$113,300 28	\$141,185 46
2. Legislative and other Public Buildings.....	8,052 04	10,475 50
3. Lunatic Asylum.....	8,898 64	4,515 96
4. Steam Navigation.....	8,785 00	7,159 05
5. Departmental Expenses.....	663 16	629 31
6. Miscellaneous Account, including:		
Part Asst. Engineer's Salary, Travelling, etc.	1,846 90	1,999 86
Government House and Outbuildings.....	171 95	190 14
Bye Roads.....	73,645 81	69,284 22
Repairs Legislative Building, Court Room, etc.	4,754 70	
	<hr/> \$220,118 48	<hr/> \$235,439 50

In the foregoing amounts for Great Roads and Bridges the proportion charged to annual- ly appointed supervisors is.....	\$ 16,228 65	
The greater portion of this is for Road Repair, Small Bridges, Culverts and Commissions. Add amounts expended on Bridges under spec- ial supervision, as per statement No. 2, Appendix A.....	60,560 28	
Miscellaneous Special Expenditure as per state- ment No. 3, Appendix A.....	4,065 84	
	<hr/>	\$ 80,854 77
Amount advanced on account of Bridges under Act of Assembly, 59th Vic., Chap. 3, 1896.		\$ 32,445 51

LEGISLATIVE AND OTHER BUILDINGS.

The ordinary expenditure on Legislative Buildings and Public Offices for the past year amounts to.....	\$ 5,688 98
On Normal School.....	2,363 26
On Lunatic Asylum, Heating, etc.....	8,898 64
On Government House, Fence, etc.....	171 95
	<hr/>
	\$ 17,122 83
Special :—	
Repairs Legislative Building.....	4,754 70
	<hr/>
	\$ 21,877 53

The damage occasioned by freshets during the past year exceeded all anticipations yet it will be found, on reference to the statement of the transactions of the fiscal year, that the expenditure has been kept well under the amount placed at the disposal of the Department. The advances made on account of permanent bridges, under the Act of Assembly, 59th Victoria, Chapter 3rd, will be recouped from the sale of debentures, as therein provided and have been made the subject of a separate account.

I have the honor to be,

Your obedient servant,

H. R. EMMERSON,

Chief Commissioner.

Department of Public Works, Established by 18 Vic., Cap. 7, Passed 3rd April, 1855.

REPORT

-- OF THE --

CHIEF COMMISSIONER OF PUBLIC WORKS,

From November 1st, 1896, to November 1st, 1897.

To His Honor, the Honorable Abner R. McClelan,

Lieutenant-Governor of the Province of New Brunswick.

MAY IT PLEASE YOUR HONOR,

In accordance with the duties of the Chief Commissioner of Public Works, I have the honor to submit my Report of all Public Works done under the supervision of the Department, together with expenditures on the same, from November 1st, 1896, to November 1st, 1897.

Statements Nos. 1 to 4, inclusive, in Appendix A., are abstracts of all payments under the head of Expenditures for Great Roads, Bridges and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all Receipts and Payments whatsoever by the Department for the past year.

The following is a comparison of the Expenditure for the past year, compared with the previous year :

No.	PAST YEAR.	PREVIOUS YEAR.
1. Great Roads and		
Bridges.....	\$ 90,958 73	\$ 80,854 77
Bye Roads	72,361 60	73,645 81
	\$163,320 33	\$154,500 58

2. Legislative and other			
Buildings.....	9,907 25	8,052 04	
Government House.	71 93	171 95	
Repairs to Legisla-			
tive Buildings, Court			
Room, &c.....	9,038 63	4,754 70	
Repairs Educational			
Office.....	1,391 00		
Painting New De-			
partmental Building	1,129 65		
	-----	21,538 46	-----
			12,978 69
3. Lunatic Asylum....	10,436 23		8,898 64
Artesian Wells.....	5,970 70		
	-----	16,406 93	
4. Steam Navigation..		7,250 00	8,785 00
5. Departmental Ex-			
penses.....		653 65	663 16
6. Miscellaneous Ac-			
counts, including			
Engineer's Salary,			
Travelling Expenses,			
&c.....		1,919 69	1,846 90
Good Roads Convention.		25 70	
		-----	-----
		\$211,114 76	\$187,672 97
Permanent Bridges.		66,207 85	32,445 51
		-----	-----
		\$277,322 61	\$220,118 48

In the foregoing amounts for Great Roads and
Bridges the proportion charged to annually
appointed supervisors is... \$17,049 93

The greater portion of this is for Road Repairs,
Culverts and Commissions.

Add amounts expended on Bridges under special
supervision, as per Statement No. 2, Appen-
dix A..... 68,044 17

Miscellaneous Special Expenditure as per State-
ment No. 3, Appendix A..... 5,864 63

Amount advanced on account of Bridges under
Act of Assembly, 59th Victoria, Chapter 3.. \$90,958 73

\$66,207 85

LEGISLATIVE AND OTHER BUILDINGS.

The ordinary expenditure on Legislative Buildings and Public Offices for the past year amounts to		\$ 7,583 21	
On Normal School.....	2,324 04		
On Lunatic Asylum.....	10,436 24		
Government House.....	71 93		
			\$20,415 41
Special :-			
Painting New Departmental Building.....	\$ 1,129 65		
Repairs Legislative Building.....	9,038 63		
Repairs Education Office.....	1,391 00		
			\$11,559 28
Artesian Wells.....			5,970 70
			\$37,945 39

In placing these statements before Your Honor, I desire to call your attention to the fact that by reason in part of severe ice freshets and heavy rain storms, and in part by emergencies which could not be anticipated by the Department of Public Works, it became necessary to incur a comparatively large over expenditure on Great Roads, Bridges and Bye Roads. The necessities of the country demanded that these works should receive attention, and the Department was constrained to meet the emergencies thus arising.

The expenditure upon Public Buildings will be seen to have been abnormally large. This was occasioned because it was found in making repairs to the Lunatic Asylum and other buildings that a great deal more work was necessary than had at first been contemplated. As the repairs progressed it was discovered in opening up the work that it was absolutely essential to make further provision for the protection and preservation of the buildings.

In prosecuting the work of boring an artesian well it was found as work progressed that greater expenditure than had been estimated for was required in consequence of the character of the boring, which could not be foretold until the actual experiment was made.

The expenditures made on account of permanent bridges, under the Act of Assembly 59th Victoria, Cap. 3, have been made a subject of a separate account, from which it will be seen that the amount expended since the passage of the Act is less than fifty per cent. of the expenditure anticipated by the Legislature, as evidenced by the provisions contained in the said Act.

I have the honor to be, Sir,

Your obedient servant,

H. R. EMMERSON,

Chief Commissioner.

LIST OF CHIEF COMMISSIONERS.

REPORT

— OF THE —

CHIEF COMMISSIONER OF PUBLIC WORKS,

From November 1st, 1897, to November 1st, 1898.

*To His Honor, the Honorable Abner R. McClelan,
Lieutenant-Governor of the Province of New Brunswick.*

MAY IT PLEASE YOUR HONOR,—

In accordance with the duties of the Commissioner of Public Works, I have the honor to submit my Report of all Public Works done under the supervision of the Department, together with expenditures on the same, from November 1st, 1897, to November 1st, 1898.

Statement No. 1 to 4 inclusive, in Appendix A, are abstracts of all payments under the head of Expenditure for Great Roads, Bridges and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all Receipts and Payments whatsoever by the Department for the past year.

The following is a comparison of the Expenditure for the past year compared with the previous year:—

No.	PAST YEAR.	PREVIOUS YEAR.
1. Great Roads and		
Bridges	\$ 88,422 92	\$ 90,958 73
Bye Roads	72,165 95	72,361 60
	<u>\$160,588 87</u>	<u>\$163,320 33</u>

2. Legislative and other			
Buildings.....	10,344 79	9,907 25	
Government House			
and Roofing.....	1,774 95	71 93	
Repairs Legislative			
Building and Educa-			
tional Office.....		10,429 63	
Painting and New			
Departmental Build-			
ing.....		1,129 65	
		12,119 74	21,538 46
3. Lunatic Asylum....	7,888 43	10,436 23	
Artesian Wells.....		5,970 70	
Electric Light.....	14,560 50		
		22,448 93	16,406 93
4. Steam Navigation..		7,450 00	7,250 00
5. Departmental Ex-			
penses.....		626 00	653 65
6. Miscellaneous Ac-			
counts, including			
Travelling Expenses,			
&c.....	1,386 07		1,919 69
Good Roads.....	1,082 62		25 70
Preparing Bye Road			
List.....	500 00		
	\$206,202 23		\$211,114 76
Permanent Bridges..	66,101 31		66,207 85
	\$272,303 54		\$277,322 61

In the foregoing amounts for Great Roads and Bridges the proportion charged to annually appointed supervisors is \$15,131 35. The greater proportion of this is as usual for road repairs, culverts and commissions..... \$15,131 35

Add amounts expended on bridges under special supervision as per Statement No. 2, Appendix A..... 65,550 68

Miscellaneous Special Expenditure as per Statement No. 3, Appendix A..... 7,740 89

Amounts advanced on account of Bridges under Act of Assembly, 59th Victoria, Cap. 3.... \$88,422 92

66,101 31

 LEGISLATIVE AND OTHER PUBLIC BUILDINGS.

The ordinary expenditure on Legislative Buildings		
and Public Offices for the past year amounts to	\$ 6,899 42	
On Normal School.....	3,445 37	
On Lunatic Asylum.....	7,888 43	
Government House, Insurance, etc.....	110 70	
	<hr/>	\$18,343 92
Special :—		
Government House Roofing.....	\$ 1,664 25	
Electric Light Lunatic Asylum.....	14,560 50	
	<hr/>	\$16,224 75
		<hr/>
		\$34,568 67

In submitting these statements for your Honor's consideration I deem it necessary to explain that the expenditure on Public Buildings was much larger than had been anticipated, due in a large measure to the difficulty in accurately foreshadowing and estimating the extent of the necessary repairs and enlargements of the Asylum buildings. The report of Mr. W. A. Quinton, Steward of the Provincial Lunatic Asylum, hereto attached, gives a clear and concise statement of the improvements made in connection with the Asylum buildings, and I beg to respectfully invite your Honor's attention to the information contained therein.

I have the honor to be, Sir,

Your obedient servant,

H. R. EMMERSON,
Chief Commissioner.

Provincial Lunatic Asylum Works.

*To the Honorable the Chief Commissioner and
Commission of the Provincial Lunatic Asylum.*

GENTLEMEN :—

I beg respectfully to submit the following report in regard to building operations and other work done at the Provincial Lunatic Asylum, under my direction, during the current year.

ELECTRIC LIGHTING PLANT.

This was installed by Messrs. G. N. Angier & Co. in the early summer and has since worked very satisfactorily, so much so that I am informed by the engineer in charge that there has not been a single stoppage due to any defect in the machinery up to the present time, which in connection with a new plant, electrical men state is very unusual and certainly speaks well for the material and workmanship.

The total capacity of the plant is 1000 lights divided in such units as to insure sufficient illumination in the event of an accident happening to any part of the machinery.

In addition to furnishing light for the building, under the direction of your honorable body, I have utilized the electric current from the same plant by the aid of electric motors to furnish power for the operation of the steam laundry and workshop in connection with the institution, both of which are now in operation with the result of a considerable increase both in efficiency and economy. In further obedience to your directions I am now preparing to utilize the electric current in the operation of the pump designed to raise the water from the well recently bored with the object of supplying the institution with water, and my information on this subject leads me to believe that this way of utilizing the electric current will prove equally satisfactory with those already in use. Subject to your consent I have also in view other methods of applying the electric plant in such a way as to add to the convenience and comfort of the inmates of the institution without adding materially to the cost of operation.

It affords me much pleasure to say that I have been able to operate this electric plant in a highly satisfactory manner, and throughout the entire day and night without one dollar's increase to the pay roll of the institution.

In addition to the work in connection with the above performed by the electrical engineer, it was found indispensable to make certain alterations and improvements in the building utilized for the power house as well as certain construction work outside the premises, all of which work was done under my direction and mainly by the regular staff and inmates of the institution.

To afford room for the installation of the new boilers, I found it necessary to enlarge the present boiler house and increase its stability by the erection of a new wall. It was also thought best to increase the coal storage capacity, and lessen the fire risk in the building by the removal of certain existing partitions which was done at a trifling cost.

The boiler setting flooring in the boiler house, brick partitions in the dynamo room and engine beds and all other mason work were done in a very satisfactory way by Mr. C. T. Tilley.

The roofing of the building, the large excavation for the engine beds, the construction of the sewer (in itself a very heavy piece of work), all carpenter, painting and machine work other than that done under the electrical contract was done by the inmates under the direction of Messrs. Campbell, Estey and Brownell as the regular staff.

With regard to the comparative cost of the present and former systems of illumination, I may add that while it is not to be expected that the electric light or any other illuminants can be supplied directly as cheaply as paraffine oil, still when increased comfort, better health and greater safety from fire and to life follow the adoption of the electric light the advantage surely preponderates in favor of the latter.

But I think a direct saving can be shown if a proper reduction of the insurance rates is made consequent upon the introduction of electricity.

However I have no doubt that this electric system, operated as a whole, will show an increase in economy over the previous methods of furnishing light and power.

In connection with the electric plant I might say in passing that the recent change in the coal contract brought about by you as well as the change in the class of coal furnished has resulted in no small saving to the Institution there being a large reduction in the amount consumed. I am also substituting this class of coal for the hard coal heretofore consumed at the annex, and I hope for a considerable saving in this respect.

LAUNDRY.

Further in the line of carrying out your instructions, I made a material change in the location and equipment of the steam laundry operated by the inmates. As I pointed out to you on a former occasion the medical staff of the institution have apprised me of the fact that the then location of the Laundry, owing to its position in the basement and for sanitary reasons, was not conducive to the health of those of the inmates engaged in its operation.

The most likely plan for its establishment was that occupied by the carpenter shop which shop by reason of its immediate proximity to the boilers and the refuse and shavings made by the workmen was, in my opinion, a veritable fire trap. The Honorable the Chief Commissioner was particularly desirous that this workshop should be so located that all danger from fire would be done away with. I therefore removed the laundry to that part of the building occupied by the carpenter shop, the latter being located elsewhere as will be stated further on in my report.

This building, on account of its original construction not being of a very substantial character, in order to fit it for its new purposes, had to suffer many material changes, in particular, the laying of a new gravel roof, the construction of a large sky-light to afford light and air, the brick-ing in of a considerable portion of the laundry room and the laying of a substantial brick floor with such an incline as to carry off sloppage and waste water. That part of the floor not liable to soakage from water I had floored with pine lumber.

I found it necessary to construct new pine tubs and set up new piping as well as an apparatus for drying clothes, made in such a manner as to utilize the waste exhaust steam from the engines, by means of which a very important saving over the former method of drying is effected.

In addition to these improvements, certain minor ones were carried out, notably, the construction of small ante-rooms for the keeping of supplies and for toilet purposes, the opening of a door connecting with the ironing room, and the erecting of a commodious closet wherein the power motor is kept under lock and key.

With the exception of the masonry all the above work was done by the staff of the institution under Messrs. Campbell, Estey and Brownell, to whose energy and ability I can cheerfully testify. I also have pleasure in stating that the value of the material used in the construction of all these important changes in the Laundry apparatus does not exceed \$100.

To this room I have removed all the old machinery heretofore in use, which works very smoothly and satisfactorily, but in order to perfect the Laundry equipment there will require to be added one or two new machines. When these are set up I can safely say that the entire plant will compare favorably with any in the vicinity.

I think that your honorable body cannot but be congratulated that such a change as this, and so beneficial in respect to the health, comfort and convenience of the patients has been accomplished and at such a small expense.

WORKSHOP.

As previously stated, this has been removed to the premises formerly occupied as a barn and coachhouse, and from its isolated position, any fire risk due to shavings or other wood refuse is reduced to a minimum.

I have made a number of improvements in this building in the way of strengthening the frame, repairing the foundation and floors, and erecting a new chimney, all of which work was done by our own men.

The wood working machinery, formerly in the cellar of the main building, has been removed to this new workshop, and is now operated by an electric motor, the power being supplied by the lighting dynamo.

BARN.

This building, which has been standing for many years, I have had practically rebuilt. The old roof has been replaced by a new one, the frame and sills have been renewed and new stalls constructed for the driving horses of the institution which are now located in this building. The thoroughness of the repairs effected will cause this barn to serve its purpose for many years to come. This work was also performed by the staff and inmates of the Asylum.

MAIN BUILDING.

The repairs upon this during the past eighteen months have been very extensive and of a permanent character. The entire slate roofs of the building, comprising an extent of about ten acres, have been renewed. The ceilings in nearly all the wards replaced and extensive brick re-construction and repairs made in the main kitchen pantry and staff dining room.

On account of the bad effect on the piping of the water in use at the institution, this had become so pitted and worn that extensive re-construction and repair was absolutely necessary. This was done in a satisfactory manner by Mr. David Campbell, our Engineer, and is now in good condition. During the year the customary necessary incidental repairs have been done in and about the building which is in a good state of preservation.

THE ASYLUM ANNEX.

No construction or repair work of any consequence has been undertaken in connection with this building during the current year. An outside cellar of a fair size has been built and serves a useful purpose. In the near future, however, I hope your honorable body will consider the advisability of making some much needed repairs in the barns and buildings, the cost of which will not be a very serious matter.

FENCING.

I have made preparations, towards carrying into effect your directions in regard to replacing the fence at present surrounding the grounds at the main building, which is in a very bad state of repair, and for that purpose the necessary stone has been hauled on the ground, and in the early spring I hope to commence its construction. It will also be necessary during the coming season to place proper fencing around the annex farm, as that there at present is in a very dilapidated condition and I am now engaged in hauling some cheap cedar to effect temporary repairs.

I have much pleasure in testifying to the very competent manner in which the employes of the department, with which I am concerned, have discharged their duties, and all construction and other work intrusted to them has been performed in a highly creditable manner.

I have the honor to be,

Your obedient servant,

W. A. QUINTON.

Department of Public Works, Established by 18 Vic., Cap. 7, Passed 3rd April, 1855.

REPORT

— OF THE —

CHIEF COMMISSIONER OF PUBLIC WORKS,

From November 1st, 1898, to November 1st, 1899.

To His Honor, the Honorable Abner R. McClelan.

Lieutenant-Governor of the Province of New Brunswick.

MAY IT PLEASE YOUR HONOR,—

In accordance with the duties of the Commissioner of Public Works I have the honor to submit my Report of all Public Works done under the supervision of the Department, together with expenditures on the same, from November 1st, 1898, to November 1st, 1899.

Statement No. 1 to 4, inclusive, in Appendix A, are abstracts of all payments under the head of Expenditure for Great Roads, Bridges and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all Receipts and Payments whatsoever by the Department for the past year.

The following is a comparison of the Expenditure for the past year compared with the previous year:—

No.	PAST YEAR.	PREVIOUS YEAR.
1. Great Roads and

Electric Light, Asylum	1,062 38	
	-----	\$1,392 38

		\$13,355 10

The foregoing statements for your Honor's consideration indicate that the expenditures of the Department, during the past year, have not been exceptional. The growth and expansion of the needs of the Provincial Lunatic Asylum, by reason of the increased number of patients to be provided for, and the improvements made necessary by the advanced needs of the time, make the buildings of that institution a cause of added care and expenditure to the Department. The report of Mr. W. A. Quinton, Steward, hereto attached, will give, in detail, further particulars as to the requirements of the Asylum buildings, and I would desire to invite your Honor's attention to its contents.

I have the honor to be, Sir,

Your obedient servant,

H. R. EMMERSON.

Chief Commissioner of Public Works.

Department of Public Works,

Fredericton, November 1st, 1899.

Provincial Lunatic Asylum Works.

To the Honorable the Chief Commissioner and

Commission of the Provincial Lunatic Asylum.

GENTLEMEN:—

I have the honor to submit the following report in regard to the status of various matters at the Provincial Lunatic Asylum, under the control of your Honorable Body, and with which I have to do.

There has been undertaken no new work of any consequence during the past year, our attention being mainly employed in keeping the buildings, etc. of the Institution in their usual good state of repair, the expense of which has been almost exclusively confined to the cost of the material only, the mechanical work being done by the staff of the Institution. I may, however, specify in detail the chief direction of our efforts.

PUMPING PLANT.

By direction of the Honorable the Chief Commissioner I hurried this work on to completion, with the result that the water from the artesian well is now being used for certain needs of the Institution. I regret, however, to say that owing to a defect in the pumping apparatus we are not as yet in possession of the total outflow of the well, but as this matter is now being dealt with by the Chief Commissioner I have no doubt but that the contractors will live up to their engagements, with satisfactory results at an early day. In this connection it gives me pleasure to state that I have been enabled to make a very large saving in construction work by the adaptation to our purposes of two unused brick tanks in the basement, which serve us admirably.

The construction of the pump house, the laying of the pipe, and all mechanical and electrical engineering (other than the construction of the apparatus) in connection with this electrical pumping plant, has been most satisfactorily carried out under the direction of Mr. Daniel Campbell, our engineer.

ELECTRICAL LIGHTING AND MOTOR PLANT.

This continues to give perfect satisfaction, and in the light of results it should be a matter of congratulation to the Department of Public Works that it has had to do with such reliable contractors.

LAUNDRY.

The new laundry answers in every way our expectations, and is vastly superior to that formerly in use. There have been no additions made to the laundry machinery which has been worked for many years, and is scarcely up to the requirements of 600 people; but as the Chief Commissioner has consented to the purchase of a new washing machine (which has been ordered and is daily expected), I am in hopes that the laundry equipment will suffice for some time to come.

MAIN ASYLUM BUILDING.

A large amount of necessary repairs has been effected on the side walls and ceilings of the main building in the way of replastering and painting. A considerable quantity of worn-out plumbing and piping has been renewed, as well as all defective food elevators and hoists.

NEW FENCING.

I have as yet been unable to commence the construction of the high fence to replace the dilapidated sheds enclosing the patients' exercising ground, and as it is very necessary that a movement in this direction be made as soon as possible, I hope, under the direction of the Chief Commissioner, to begin work as early in the coming spring as the weather will permit. A large proportion of the necessary material is already on the ground.

THE ASYLUM ANNEX.

As the Honorable the Chief Commissioner has under consideration the matter of the water supply and a more efficient mode of lighting this building, I await instructions in regard thereto, as well as directions as to the securing of a new steam boiler to replace or supplement that now in use.

I have much pleasure in testifying to the very satisfactory manner in which the several members of the staff of the Institution have performed their duties.

I have the honor to be,

Your obedient servant,

W. A. QUINTON.

LIST OF CHIEF COMMISSIONERS.

REPORT

—OF THE—

CHIEF COMMISSIONER OF PUBLIC WORKS,

From November¹st, 1899, to November 1st, 1900.

To His Honor, the Honorable Abner R. McClelan

Lieutenant-Governor of the Province of New Brunswick

MAY IT PLEASE YOUR HONOR,—

In accordance with the duties of the Commissioner of Public Works, I have the honor to submit my Report of all Public Works done under the supervision of the Department, together with expenditure on the same from November 1st, 1899, to November 1st, 1900.

Statement No. 1 to 4, inclusive, in Appendix A, are abstracts of all payments under the head of expenditure for Great Road, Bridges and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all receipts and payments whatsoever by the Department for the past year.

The following is a comparison of the Expenditure for the past year compared with the previous year: —

No.	PAST YEAR.	PREVIOUS YEAR.
1. Great Roads and		
Bridges.....	\$93,067 64	\$92,968 84
Bye Roads,....	68,345 97	72,416 88

	----- \$93,067 74
Amounts advanced on account of bridges under Act of Assembly, 59th Victoria Cap 3. . . .	65,499 98

LEGISLATIVE AND OTHER PUBLIC BUILDINGS.

The ordinary expenditure on Legislative Buildings and Public Offices for the past year amounts to.....	
	\$6,103 28
On Normal School.....	2 208 98
On Lunatic Asylum.....	8,338 82
Government House, Flags, &c.....	42 38
	----- \$16,693 46

Special:—

Sloyd Rooms, Normal School.....	\$1,079 40
Judges' Court Rooms, St. John.....	451 14
	----- 1,530 64

The foregoing statements for your Honor's consideration, for the past year is we think a very good showing. On Great Roads and Bridges we have an overexpenditure of \$12,807 64. When it is taken into consideration that \$19,740 has been deducted from our Great Road Grant for Sinking Fund and Interest, the amount is not very great.

The overexpenditure on Public Buildings is caused by the expenditure for two Sloyd Rooms at the Normal School Building, and sundry furnishings for the Judges' Court Rooms at St. John.

The expenditure on the Provincial Lunatic Asylum is annually increasing by reason of the increased number of patients. The amount required next year will probably be larger than for the past as will be shown in a report from Mr. W. A. Quinton, Stewart, hereto attached.

The heavy freshet of October last caused a great destruction of our roads and bridges and will necessitate a large expenditure.

C. H. LaBILLOIS,

Chief Commissioner.

*To the Honorable the Chief Commissioner and
Commission of the Provincial Lunatic Asylum.*

GENTLEMEN:—

I have the honor to submit the following report in regard to various matters of the Provincial Lunatic Asylum and Annex under the control of your honorable body and with which I have to do.

NEW FENCING.

There has been a large portion of new work done this past year at the main building. The fences have been built in connection with the female wards, a number of ceilings have also been repaired. This work has largely been done by the staff of the Institution the expense of which has been almost exclusively confined to the cost of material only, the mechanical work having been done by the staff of the Institution with exception of the mason work.

PUMPING PLANT.

The pumping plant which was placed last year in connection with the Artesian Well I regret to say that the pump has not been what was anticipated or that the contractors who supplied the pump have not carried out their agreement satisfactory, but with the necessary repairs that we have placed for the adoption of our purposes is now at the present time doing better. It will be necessary to have a large amount of repairs done in reference to our heating apparatus in the East Wing. I would also call the Honorable Chief Commissioner's attention to the Cold Storage as our present buildings are now in a very dilapidated state and will hardly hold the ice we have now placed in them. And we also require proper storage for meats, butter, &c., which can be all arranged within the one building.

LAUNDRY PURPOSES.

It will be necessary in order to make our Laundry up to the proper requirements for six hundred people to have one large Brass Cylinder Washing Machine to take the place of the old machine which is now worn out.

THE ASYLUM ANNEX.

In my last report I named in reference to a supply more efficient supply and method of lighting the Annex Building. I await instructions in reference to this matter, as we will also require our water and sewerage enlarged I presume. During the present months we have put in a new Boiler in place and enlarged the Boiler House by building on one end. We also have done away with the Conservatory which has given two more large rooms, rebuilt the main walls in front, which has made a great improvement and saving in fuel for the different wards. We also have carried out the completion of our large Chimney which we are now deriving the benefit of as we are now in a position to burn any kind of coal.

A large amount of new fencing has been done with our own staff, and, as we have the material on hand, propose next year to build the whole of the fences in connection with the farm.

I have much pleasure in submitting this report to your Honorable body and also in testifying to the very satisfactory manner in which the several members of the Institution have performed their duties.

I have the honor to be,

Your obedient servant,

W. A. QUINTON.

St. John, N. B., Jan'y 7th. 1901.

To The Honorable,

The Commissioners of the Provincial Lunatic Asylum.

GENTLEMEN:---

I have the honor to submit to you my annual report respecting matters in connection with your institution with particular reference to agricultural operations at the Asylum Annex farm, and the maintenance of the Annex buildings and equipment to which I respectfully append for your consideration certain recommendations the carrying out of which are in my opinion necessary to keep the premises in their accustomed good state of repair, convenience and sanitary condition.

AGRICULTURAL OPERATIONS.

The yield of the farm for the past season was as follows:---

Description of Product	Quantity.	Description of Product.	Quantity.
Potatoes,	3,380 Bushels	Straw.	150 Tons.
Turnips,	3,800 "	Fodder,	160 "
Carrots,	689 "	Oats,	1800 Bushels
Mangolds,	300 "	Pork,	7857 Pounds
Beets,	250 "	Beef,	1080 "
Parsnips,	150 "	Lard,	265 "
Cabbage,	15,000 Heads.	Wood,	120 Cords.
Celery,	2,000 "	Milk,	58,309 Quarts.
Squash,	4 Tons.	Eggs,	560 Dozen.
Hay,	90 "		

In addition to the above there has been grown and used for daily consumption a considerable quantity of garden truck and small fruits.

The crops on the farm have been quite up to the average and fully met my expectations.

MAINTENANCE OF BUILDINGS AND EQUIPMENT.

As foreshadowed in my last report I have been enabled with your kind permission to carry out my plans with reference to the conservatory. This on account of the quantity of fuel required for heating did not in my opinion give results commensurate with the expense and it was thought expedient to do away with it which was accordingly done the main walls of the building extended and the space so enclosed now affords two very convenient apartments for the use of the attendants.

The roof of the Annex building which required repair has been reshingled in parts making it now thoroughly waterproof, the ceilings in the upper hall replastered, the eastern end of the building repainted inside and out, a new hardwood floor laid in the men's ward and other incidental repairs effected necessary to keep the building in good habitable condition.

As further recommended in my report of last year and authorized by you, I have a larger Steam Boiler installed to replace the worn out one formerly in use. The new Boiler gives every satisfaction.

In further connection with the steam plant I found it necessary to increase the size of the boiler house and replace the roof, making the structure roomy and convenient for water and light.

An addition of 20 feet to the back chimney which I also had built should have the effect of lessening the coal consumption.

The construction of wire and cedar fences on the farm was further continued and there now only remains a small proportion to be done in completion of the work, the material for which is on hand.

All the above construction and repair work except the masonry was done in a thorough manner by the staff of the institution.

RECOMMENDATIONS.

In my former report, as well as in that of the present year, addressed to the Honorable the Chief Commissioner, I have touched upon the necessity for an improved lighting system for the annex building, and it is a matter for the consideration of your honorable body whether this cannot be done most economically and efficiently with the electric light to be supplied from the plant operated at the main building. I am at present of the opinion that the surplus power there can be thus satisfactorily utilized and I await your instructions in the matter.

The matter of an increased water supply is also respectfully presented as the present supply is altogether insufficient. A new pump in connection with the present system is required.

I have also to mention the necessity for a complete renewal of the sanitary arrangements and sewerage system at the annex building. I take much pleasure in testifying to the very efficient manner in which all work has been carried out in the different departments under my direction.

I have the honor to be,
Your obedient servant,

W. A. QUINTON.

POOR HOUSE ROAD, MONCTON, -- SAMPLE OF WORK DONE WITH THE NEW ROAD PLANT.

REPORT

OF THE

CHIEF COMMISSIONER OF PUBLIC WORKS,

FROM NOVEMBER 1ST, 1900, TO NOVEMBER 1ST, 1901.

*To His Honor, the Honorable Abner R McClelan,
Lieutenant-Governor of the Province of New Brunswick:*

MAY IT PLEASE YOUR HONOR,—

I have the honor to submit herewith my Report of all Public Works done under the supervision of the Department, together with expenditure on the same from October 31st, 1900 to November 1st, 1901.

Statements Nos. 1 to 4, inclusive, in Appendix A., are abstracts of all payments made for Great Roads, Bridges and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all receipts and payments for the past year.

The following is a comparison of the expenditure for the past year compared with the previous year:—

No.		PAST YEAR.	PREVIOUS YEAR.
1.	Great Roads and		
	Bridges,	\$153,698.10	\$93,067.64
	Bye Roads.	86,609.94	68,345.97
		<hr/> \$240,308.04	<hr/> \$161,413.61
2.	Legislative and other		
	Buildings,	\$9,868.79	
	Government House.	99.34	
		<hr/> 9,968.13	8,354.64
	Sloyd Room, Normal School,	275.71	1,079.40
	Judges' Court Room, St. John,	102.16	451.24
3.	Lunatic Asylum,	6,433.02	8,338.82
		<hr/>	<hr/>
	Carried Forward,	\$257,087.06	\$179,637.71

Brought Forward,	\$257,087.06	\$179,637.71
Artesian Wells,	364.82	
4. Steam Navigation,	8,500.00	7,300.00
5. Departmental Expenses,	679.31	562.76
6. Miscellaneous Accounts, including Travelling Expenses, Printing and Binding,	1,383.63	1,326.25
Mail, Leg. Cont., Good Roads, etc.,	232.61	159.65
	<u>\$268,247.43</u>	<u>\$188,986.37</u>
Permanent Bridges,	34,192.06	65,499.98
	<u>\$302,439.49</u>	<u>\$254,486.35</u>

In the foregoing amounts of Great Roads and Bridges the proportion charged to annually appointed Supervisors is \$16,206.52. The greater portion of this is as usual for road repairs, culverts and commissions. \$16,206.52

Add amounts expended on bridges under special supervision as per Statement No. 2, Appendix A. 121,345.60

Miscellaneous, Special Expenditure as per Statement No. 3, Appendix A. 16,145.98

\$153,698.10

Amounts advanced on accounts of Bridges under Act of Assembly, 59th Victoria Cap 3. . . . 34,192.06

LEGISLATIVE AND OTHER BUILDINGS.

The ordinary expenditure on Legislative Buildings and Public Offices for the past year amounts to.	6,713.94	
On Normal School.	3,154.85	
On Lunatic Asylum.	6,433.02	
Government House, Flags, &c,	99.34	
	<u>—</u>	<u>\$16,401.15</u>
Sloyd Rooms, Normal School,	\$275.71	
Judges' Court Room, St. John,	102.16	
	<u>—</u>	<u>377.87</u>
		<u>\$16,779.02</u>

The increased expenditure on Roads and Bridges during the last fiscal year over past years was caused by the rain freshet of October

1900, which was unprecedented in the history of the province, and resulted in the loss of a great number of bridges and considerable damage done to the roads. The spring freshet of 1901 also caused serious losses of bridges and damage to roads in several counties.

The amount paid on account of freshets is \$60,326.80. It will therefore be seen by Your Honor that when you take into consideration the amount that had to be expended in connection with the two freshets the expenditures of the Department have not been exceptional.

Most of the bridges built last year are good substantial structures and are built on high levels. Considerable protection work was constructed to protect our roads situated along our rivers and bays; and several of our old bridges have been replaced by dumps of a permanent character.

Some good work has been done with the new road plant. At Moncton over one hundred and twenty-five rods of almost impassable road was converted into the finest stretch of road in Westmoreland Co. It is known as the Poor House Road and stands well the test of traffic and frost.

Several wharves were built during last year with the understanding that the Dominion Government would pay half the cost. It now owes the Provincial Department of Public Works on this account \$8,219.39, and I have every reason to believe that this amount will soon be forthcoming.

During the past year the Chief Commissioner attended several Farmers' Institute meetings throughout the Province, and spoke on the subject of good roads. This will be continued as much as possible in future. The reason why our country roads are not being improved as they should is because they haven't had a sufficient place in the public mind.

During recess Mr. T. B. Winslow, Secretary of the Public Works Department, went to the United States. While there he visited the Boston State House, with the view of securing information towards establishing a system that would reduce the cost of lighting the public buildings at Fredericton.

In this Report will be found a list giving the number of bridges situated on the great roads of each County in the Province, and the total length of bridge work in each county.

Several statements will be found in the Report giving the amounts of tenders received for a number of bridges and the names of persons to whom contracts were awarded.

Expenditures on account of the Provincial Lunatic Asylum and Annex made during the year were absolutely necessary in the public interest.

I have the honor to be, Sir,

Your Obedient Servant,

C. H. LABILLOIS,

CHIEF COMMISSIONER OF PUBLIC WORKS

Department of Public Works,

Fredericton, November 1st, 1901.

To the Honorable the Commissioners of the Provincial Lunatic Asylum:

GENTLEMEN :—

I have the honor to submit the following report bearing more especially upon Agricultural matters in connection with the farm at the Annex of the Provincial Lunatic Asylum.

During the year my efforts were in the direction of increasing our crop acreage and I was enabled to place in proper condition for root and grain crops about fifteen (15) acres pasture and rough land as well as in the improvement of our marsh lands by the construction of a number of drains, both stone and open.

The crops suffered severely on account of the extraordinary dryness of the season and as a consequence of this, the potato crop was a failure and the yield of oats was only fair. The root crop however was excellent.

As a further result of the lack of rain our pasturage failed and we were obliged to use fodder for cattle feeding.

The production of the farm for the season of 1901 was as follows:

Class of Produce.	
Potatoes.....	2235 bushels
Turnips.....	2000 "
Carrots.....	700 "
Mangolds.....	100 "

Beets	325	"
Parsnips	250	"
Cabbage	13500	heads
Celery	9650	"
Squash	60	"
Hay	95	tons
Straw	85	"
Fodder	130	"
Barley	80	bushels
Oats	1225	"
Pork	5420	pounds
Beef	1160	"
Lard	181	"
Wood	150	cords
Milk	51756	quarts
Eggs	300	doz.

Together with corn, beans, peas, apples and small fruits for daily consumption.

I have the honor to be

Your obedient servant,

W. A. QUINTON

St. John, N. B., Dec. 31st, 1901.

To the Honorable Chief Commissioner of Public Works:

SIR:

I have the honor to submit the following report, covering the work in connection with your department carried on in and about the premises of the Provincial Lunatic Asylum, and the Annex thereto during the past year.

I shall first deal with the New Construction, and repair work, done at the Asylum proper or main building.

NEW CONSTRUCTION.

Acting under the recommendation outlined in my last Annual Report, with your permission I had plans prepared for a Cold Storage House, and the foundation of this was proceeded with in the way of getting stone until the cold weather put a stop to our operations.

I hope to have the building completed during the coming season,

and feel assured that it will in every way answer the requirements of the Institution.

The only other new construction at the main building was a very commodious root cellar.

RENEWAL AND REPAIR.

As it was thought best to have the chief engineer in residence he was allotted the unoccupied house near the gate. This has been thoroughly renovated and repaired, and is now in very good condition.

A number of new toilet rooms in the different wards have been constructed, and the necessary baths and closets installed. The partitions forming these are of brick, and the floors of cement.

Wherever necessary, ceilings have been renewed throughout the building. Proper attention has also been given to the water and steam piping, and the required repairs made to keep these systems in good condition. I may add that as a result of our efforts of late years, the various buildings at the main institution other than the root and storage house now undergoing replacement are in a state of good repair.

The steam, electric, and pumping plants are all in excellent order, and the very trifling amount expended on these on repairs from time to time is a result of the care taken in their installation.

ASYLUM ANNEX.

The principal building operations for the year were carried on at the Asylum Annex, and I shall now briefly detail the construction and repair work there completed.

NEW CONSTRUCTION.

The new barn which has for some time past been under consideration has been carried to completion. Its dimensions are 70 x 40 feet affording barn room for 40 head of cattle on the basement, and storage for 80 tons of hay. The foundation is of granite cut from boulders found on the farm and the superstructure is of wood. The materials entering into the construction are all of the best quality, and the workmanship other than that of the masonry was done entirely by the staff of the institution. Part of the basement is utilized for a root cellar, and the building contains every essential for the rapid handling of produce, and the comfortable housing of cattle.

RENEWAL AND REPAIR.

At the Annex building the brick work has been gone over, and repointed; attics newly sheathed, the sewerage system reconstructed, and a considerable portion of the inside of the building repainted.

A steam pump of larger capacity has been set up, and new lines of pipes laid to tanks in attic, and for fire prevention purposes. Necessary repairs were also done to the steam boiler, and the water tanks were relined.

On the farm the work of building wire fences was continued.

RECOMMENDATIONS.

I would again urge the necessity for an improved lighting and water service at the Annex. The former of which, I am assured, can be installed at a comparatively small expense in connection with that at the main building, there being sufficient surplus power there for the purpose, and the latter brought about by the sinking of another Artesian Well, the outlay for which would be inconsiderable.

It will be necessary as soon as the weather will allow to rebuild the foundation of the old barn at the annex (as the present one has survived its usefulness) as well as that of the building used as a root house.

The roof of the old barn will also require reshingling, and a manure shed in connection with the new barn is a want of the immediate future.

It affords me much pleasure to acknowledge the very valuable assistance I have received from those employees of the institution under my direction.

I have the honor to be,

Your obedient Servant,

W. A. QUINTON.

St. John, N. B., Dec. 31st, 1901.

Department of Public Works Established by 18 Vic., Cap. 7, Passed
